

PHOTOGRAPH RAID

While on your travels to the far reaches of the planet you may feel the need to capture your experiences on your camera. It is probably and videos one of the only ways besides your memory to get a true picture in years to come of your memorable trip.

Some goals for sustainable tourism:

- Build environmental & cultural awareness
- Design & operate low-impact provide financial benefits for conservation
- Provide financial benefits for local people
- Support human right

You have a special mission today. We are going to participate in a **video and photography competition!** You can participate in two different competition.

You should make many photos and videos and upload your three better photos and your best video at our Facebook group for each competition.

1° COMPETITION:

The theme for the **Competition is sustainable travel day in Sevilla.** This can be interpreted in a wider sense through subjects linked to the environment, the people and tourism destinations.

2° COMPETITION:

You should make photos and videos where you report about some **unsustainable issue o situation** that you see during the trip.

The winners are going to be the students who get more likes at Facebook.
